COMMUNITY AGGREGATION

Community Aggregation is an easy and cost effective way for residential and small business customers to save money on their electric and natural gas bills. By bringing your community together, you increase your buying power, giving you and your neighbors access to better energy prices.

The Aspen Advantage

Aspen Energy has guided more than 100 communities to form aggregated buying groups on behalf of their citizens which has resulted in significant energy saving for residents. No matter the size of your community, Aspen will be your partner to guide you from proposal to ballot and beyond.

Significant Buying Power

Combining households and businesses together to receive rates usually reserved for large users.

Easy Enrollment

Favorable terms to opt-out without fear of early termination fees. Suppliers can offer your community 24/7 live customer service.

Competitive Energy Rates

Energy suppliers will compete for your business, further driving down energy prices.

No Change in Your Utility

You will continue to receive your energy distribution from your local utility.
