Mark Rufener, Village Engineer from K. E. McCartney talked to Council about grading for individual home sites in a subdivision. There is no oversite to homes after built. The subdivision code requires a grading plan. Delaware County has a process to have a lot grading plan, then it goes to the building department, an as built survey is done by a surveyor according to the building plan and no approval is done until certification is complete, final as built grading plan and then the final as built is approved. Mayor Love commented that this would help residents if there is a problem with the developers. Kathy Krupa questioned who would do the paperwork. It would be Levi Koehler and Mark Rufener. Mark commented it would be best if changes were made before the next development begins.

Gillian Doucette

Gillian Doucette, head of the playground committee and Jon Goodman presented to Council the progress of the playground committee. They explained who is on the committee, that all committee members have reviewed the grant, scheduled meetings with proposed companies, and they will hopefully update details and a recommendation by the March 27th Council meeting. Council also asked questions pertaining to loose recycling and blowing of trash. Mr. Austin replied that a supervisor does drive thru areas to double check that there is no trash left behind.

Wendell Faris, 324 Caleb's Ct. had concerns about his sewer bill going up. Mark Rufener explained that it is now based on water usage.
