

Village of Galena ♦ 109 Harrison Street, PO Box 386, Galena, Ohio 43021 ♦ 740-965-2484

Dear Village Residents,

This is to inform our residents that the Village will be going through a fiber update in 2025-26. Bringing additional competition into the area will have long-term benefits for our residents, but in the near term there will certainly be some construction to contend with.

Altafiber is currently preparing to start work in the Village. The project timeline and order of permits are below. Buried permits are starting construction currently. All other areas of the Village is a mix of buried and aerial deployment which is dependent on pole line engineering. That timing is TBD for now.

- DC Zoar and Flintlock - buried
- DC Hawking and Calebs - buried
- DC High and Harrison - buried
- DC Middle St. and S Old 3C - mix
- DW Red Oak and White Pine - mix
- DW S Galena north of Alexander - mix
- DW S Old 3C and Lakeview - mix
- DW Vans Valley and Trenton – mix

Following is information that should be helpful to better understand the construction timeline and where to find additional information.
